A Scandalous and Libellous Defamation.

The *Times* in its yesterday's issue, publishes a malicious, false and defamatory statement, tendered into conspiracy with Deacon Ambrose, to procure testimony against women of ill-fame by hiring a man named Brown to acquaint himself with the character of the inmates by personal knowledge which would admit of no doubt."

It alleges that Deacon Ambrose testified before the grand jury corroborating the statement, and that John C. Haines furnished the money with which Brown obtained the evidence against the parties, and then charges that Mayor Haines went before the grand jury, and stated that body that it was their duty to indict the accused upon the evidence furnished."

These are three charges utterly destitute of truth, and suspect in good part, coined out of the malevolently dyspeptic imagination of the editor of the *Times* print. If Brown testified what the *Times* states, we have the highest authority for asserting, that he swore to a spotted black falsehood. Brown is employed as a special policeman. His business is to ascertain that the laws and ordinances of the city are not habitually violated, and report the same to his Chief; but that he had instructions from the Mayor, or was authorized to prostitute himself to issues of ill fame, is untrue—the very reverse of that being his directions. He, with other detectives, are specially warned by the Mayor to have no "personal knowledge" of the character of those females, under pain by of forfeiting their appointments. Such is the truth of the matter.

Deacon Ambrose most positively and emphatically denies having given such testimony before the Grand Jury as the *Times* fellow alleges, or anything resembling it or giving color to it.

The third charge of the *Times* is, if possible, more of the truth than either of the others. The "Mayor signed to the jury" nothing of the sort alleged. He made a private statement of the fact, telling them in a plain unvarnished way just what his orders to the detectives were. He said nothing to them to the jury about "their duty to indict" any body. A juror asked him what course of proceedings he would suggest. He replied, "Gentlemen, it is not for me to give you any advice in the premises." *It is for you to determine the course to be pursued. All I desired was to tell you exactly what I had done heretofore, as a part of my official duties, and with whom I advised in relation thereto*"—referring to his previous consultations with the District and City Attorneys. How different is all this to the scandalous, lying statement in the local columns of the *Times*.

The *Times* winds up its allegations by saying that the Recorder had intimated that Haines, Ambrose and Brown should be indicted for conspiracy." This is a falsehood as far as it affects the Mayor or Ambrose. The Recorder has intimated nothing of the kind. There has been some talk of indicting Brown for fornication, but as to the others it is all bosh. The head of the *Times* is in the same habit of seizing upon idle rumors and perverting them into startling sensation items. An scrupulous conscience, a fertile imagination, and a malevolent hatred of the city administration are the causes of these libelous charges.

Relative Prices of the New Grades of Wheat.

Some samples of wheat and corn graded according to the new inspection were exhibited at Change this morning. The Club seems to be a grade higher than what was formerly inspected as extra, and is really worth for milling purposes from 8 to 4 cents per bushel more than that quality. No. 1 will hardly come up to the grade of what has been heretofore known as extra, though the difference will be very small, not over one half to one cent per bushel. No. 2 makes very fair "standard" and a car load of this grade was sold to-day at 69 cents in store. Rejected is positively bad wheat and will vary in price according as it is more or less damaged and foul.

The system as illustrated by the samples shown this morning seems to give general satisfaction to buyers, and there is every reason to believe it will be rigidly adhered to. After a trial or two, shippers in the country will become thoroughly familiarized with the various grades, and experience no difficulty in their classifications. We shall look forward to the reception of a cargo of this wheat in New York with as much anxiety perhaps as those who may be peculiarly interested in it, since as we no the deepest concern for the credit of all Illinois products, grain in particular.

The Pay of Policemen.

MESSRS. OR TIMES:—Whilst retrenchment is the order of the day, I can see no good reason for paying policemen more than ever, and getting? Any number of first-class men can be had at $8 per week, and they will do all the time the weather is unbearable to walk out. Our city pays policemen $12 per week, they take an oath to serve the city faithfully, and are then left to do as they please. Policemen serve no apprenticeship, and buy no uniform, but are put on duty at once, and take board by the day. Many policemen are hired on from during the winter months, and when work goes on, are discharged, as it is not necessary to employ so many. Now it is not necessary to pay twelve dollars per week to men who are not worth eight dollars. Times must be growth good with us, and we must pay twelve dollars per week to policemen, when they can be procured for eight dollars. It should be avoided if possible, and I would suggest that the Common Council reduce the pay of policemen to eight dollars per week, and that they receive a good, able bodied men. TAX PAYER.

Steam Cars.—Messrs. Urhart & Co. Praises and Counter Statements.

Messrs. Urhart & Co., at No. 184 South Water street, have a quantity of the very best quality of Seed Corn, particularly in Michigan, which they offer to those who wish to plant. The worst complaint of an insufficiency of food and corn to supply the demand at the farmers, induced them to purchase a quantity of the best kinds that can be found in the West.

Relief for the Illinois Sufferers.—Mr. Daniel Lescott, of Elliston, chairman of the committee for receiving and distributing contributions for the relief of the Elliston sufferers, and Mr. Alfred Knowles, of Young America Station, a member of the committee, are at the Briggs House, and will call upon our citizens to obtain aid for the sufferers. Any sample whom all are desirous of by the terrible visitation which passed over their homes. Here is a good opportunity for the charitably disposed to aid in relieving the necessities of a deserving and suffering community.

Fire in Hooper Street.—The alarm of fire about 8 o'clock yesterday morning, was caused by the burning of the machine shop and foundry on the corner of Hooper and Fairbank streets. Some of the buildings were entirely consumed. The loss is $20,000, with no insurance. From $10,000 to $15,000 worth of Kimball's cars was in the shops, a portion of which were burned.

Pyrotechnic Display.—The display of fire-works on the lake front last evening, was very fine. The Great Western and Julius Caspar's band have both been engaged; and with the presence who attend will receive the full equivalent of their money's worth in the way of music. The display will commence at 8 o'clock, and will continue until about 10. A minute notice of the display will be given.

At Lemont.—While at the new township on the other evening, we had a fine opportunity of witnessing the operation of the new Steam Saw Mill, but by the small number of persons present. Lemont is a thriving place, and the new mill is a decided benefit to the town.

Resolutions passed in the Chicago "Arbeiter Zeitung" of June 14th, 1858:

Whereas, The editor and proprietor (John Wentworth) of the Chicago *Democrat*, has this day published an article in his paper relative to the reduction of wages of the laboring class who are in the employ of the city, viz: that the wages for any laborer in the employ of the city shall from the 14th day of June, 1858, be reduced from 75 cents to 50 cents; and

Whereas, The members of the Chicago Arbeiter Verein are under the impression that it is impossible for a man to support a family with the paltry sum of fifty cents per day, even under existing low prices of provisions, etc., and that seventy five cents should by all means, under any circumstances, be the least to be paid to any laborer;

Whereas, The rate of fifty cents per day is a reduction of fifty per cent in comparison to the wages of last year, while the salaries of our city officials have at most been reduced at all, and the intended reduction only amounts to the average of twenty-five per cent;

Whereas, The laboring class are as well entitled to the necessary means of existence as the officers who were elected by them;

Whereas, It is a most revolting injustice to expect that a laborer shall live on the paltry sum of from $100 to $150 per twelve months, while the officers of the city receive salaries as high as $4,000;

Whereas, Even the contemplated and lasting of a Bridewell inmate exceed the sum of 50 cents per day, including keepers' hire, ground rent, etc., etc.;

Whereas, The reduction of wages to 50 cents per day will create for the future a proletarian population, similar to the one in Europe, whereby the poor are degraded more and more, and the rich become wealthier and wealthier; while a certain reasonable rate of wages would furnish to the poor laborer all those necessaries requisite to his existence, and those who are unable to find employment will be bound to seek for such in unsettled parts of our State, and thereby contribute to the growth and wealth of non-commercial life;

Whereas, Mr. Wentworth, editor and proprietor of the Chicago *Daily Democrat*, became the originator of the reduction of wages as above shown, by agitating the question in favor of reduction;

Whereas, Such measures are contradictory to the spirit of the Declaration of the Republican Party, as calculated to cause discord in its ranks; and

Whereas, The German laborers unanimously contributed to the victory achieved by the Republican party; therefore

Resolved, That the Chicago "Arbeiter Verein," in the name of its fellow German laborers, as well as in the name of humanity, most solemnly protests against the reduction of wages to fifty cents per day; and

Resolved, That John Wentworth has rendered himself unjust the interest of the laboring class, which were entirely uncalled for.

Resolved, That we have the most unwavering confidence in our present Mayor, John C. Haines, and trust that he will by all means at his command prevent a reduction of wages to fifty cents per day;

Resolved, That we express our sincerest thanks to the editors of the Chicago Tribune, which in their number of June 14th, opposed the reduction of wages in such a brave and manly manner, and thoroughly refuted the absurd ideas advanced forward by the advocates of the labor so cheap.

Resolved, To publish these Resolutions in the English and German newspapers in the city.

Resolved, To send a copy of these resolutions to the Mechanics' Institute.

CHARLES HAUSENER,
President the Chicago Arbeiter verein. (German Mechanics' Association.)
G. KAISER, Secretary.

CITY ITEMS.

Trade will be a meeting of the members of the Chicago Board of Trade, at their rooms, on Thursday, June 17, at 12 M., to take into consideration the propriety of taking daily telegraphic dispatches.

W. W. MITCHELL, Secretary.

Mr. Wentworth of the *Democrat* and Mr. Schmidt and Blondin the German gentlemen who have been performing on the "Manilla Ape" at the Music Hall, as well as "Jockey" the fairy equestrienne of the "Green Monster," Miss Hillert in her dances, and a new ballet divertissement. These leading stars drawn a crowded house and are well worth seeing. The pantomime are put upon the stage in good style, reflecting credit upon the liberality of the management.

Ten Minute Tracts.—Mason, the manager of the popular new play now at North's Theatre, deserves a deal of credit for the unique manner which he has attained in the training of the children. They too are gifted with precocity which with their intonage, renders their very gabbling and attractive. Last evening the house was crowded notwithstanding the lowering appearance of the weather, and the pieces were rendered with pleasure by those present. This evening a good bill is announced.

Fresh Cow.—Messrs. Urhart & Co. Praises and Counter Statements at No. 184 South Water street, have a quantity of the very best quality of Seed Corn, particularly in Michigan, which they offer to those who wish to plant. Wood's Hair Restorative.—This wonderful preparation having an extensive sale in all parts of the country, and we are constantly asked for certificates of its merits. Whenever it has been faithfully used it never fails to restore the hair to its natural color, and to promote a luxuriant growth. It is not pretended but it will make the hair grow in every case, but where it fails there is certainly no injury. The restoration of the hair has been effected in so many cases within the past twenty months, that it is unnecessary to publish certificates. Those who have used it know its value, and those who have not had only to try it to be convinced. Sold by Wood & Barnes, Wholesale Druggists, 109 South Water street, Chicago. [pbl-1y-6]

BY TELEGRAPH.

The Freshet.

Cairo and Bound Shy.

Centralia, June 15.—The reports to-day from Cairo are of the most alarming character. The water is still rising. It is now running over the Ohio levee in several places.

Mr. J. Ashley, Chief Engineer of the Illinois Central Railroad, gives it as his opinion that a foot more rise will sweep Cairo entirely away. Mound City is under water. There is now six or eight inches on the first floor of the Shelton House.

The depot grounds—the highest place in the town—is covered to the depth of four or five inches.

Passengers are conveyed one quarter of a mile from Mound City to the cars, on flat boats.

Calamity to the Pennsylvania.

200 to 250 Lives Supposed to be Lost.

Memphis, Thursday, June 14.—The steamer Memphis was the first to arrive at the wreck of the Pennsylvania. She took a large number of the passengers back to New Orleans.

The Diana arrived here at 11 o'clock on Sunday night, with a large number for Louisville.

A meeting of citizens was called to express sympathy with the sufferers, and a thousand dollars was raised for their relief. Committees were appointed to collect further aid.

Mr. Rasch, of the French Opera Troupe, died to-day from his injuries. Several others are not expected to live.

LATER.

Centralia, June 12.—About 60 of the sufferers by the disaster of the steamer Pennsylvania came up from Cairo on the train to-day, the greater part of them bound for St. Louis. Many of them were in a destitute condition, and were passed over the Illinois Central Railroad free of charge. Every attention and kindness was shown to them by the officers of the road.

An engineer, who was a passenger on board the Pennsylvania, states that she had about 450 passengers on board, of whom he thinks from 200 to 250 were lost.

Boat and cargo a total loss. She burned to the water's edge, and sank in shallow water in three-quarters of an hour. The papers and mons of the boat will probably be recovered as the safe fell through the barrier, deck into the hold.

LATER FROM EUROPE.

Arrival of the Steamship Arago.

New York, June 16.—The steamship Arago arrived at noon to-day, with London dates to the 2nd.

Her news was mostly contained in the accounts per the Nova Scotian, via Cape Race, but there are some items of interest.

The Atlantic Telegraph fleet was expected to return to Plymouth on the 4th, previous to the final departure to lay the cable.

Reinforcements were sent to Canton.

Selassie was collecting troops, and a violent collision had occurred between the Circassians and Russians. Five hundred of the latter were killed.

In addition to the statement from Cape Race on the subject, Mr. Fitzgerald said her Majesty's government had signified to the government of the United States, that they were ready to adopt such measures as the latter might suggest to meet the difficulty; that slavers almost invariably carried the American flag.

LATER.

Arrival of the Steamship Europa.

Halifax, June 13.—The steamship Europa, from Liverpool at noon P. M. of the 5th inst., arrived here.

Great Britain.

The Commons passed the 53, the Atlantic Telegraph and Property Qualification bills.

Mr. D'Israeli in reply to a question said there had been no rupture in the negotiation which had been opened with the Emperor of China.

On the 4th, in reply to a question, Mr. Fitzgerald said that the Government had no official information of the arrest of Capt. Judkins, at New York. With regard to the other question put, the American Government had made no charge against certain British officers, and no official document had been received from those officers. He could only say that if concurrences such as those complained of had taken place they would be viewed with the deepest regret by the Government and immediate explanations given. The fullest information should be laid before Parliament as early as possible; meanwhile he had to add that orders had been sent out to the officer in command of the Cuban squadron to make every enquiry into the subject, and that the greatest caution and forbearance should be exercised towards vessels bearing the American flag.

The papers maintain a general conciliatory tone.

The Atlantic Telegraph fleet had returned to Plymouth from their experimental trip. The experiment in paying out and hauling in the cable in water only three miles deep was entirely successful. The operation of splicing was perfected four times. The cable was paid on the rate of seven miles per hour per day. The expedition will start from Plymouth on the 10th of June.

1000 troops were to be sent to India with cavalry chargers, during 20 additional ships had been chartered.

Messrs. Rawson, Sons & Co., of London and Liverpool, with branches in India and China, had suspended. Liabilities £700,000, with ample assets.

Rioting on a large scale was of almost nightly occurrence at Belfast. The military and police were engaged in quelling the factious fights.

The "Times" of Saturday has a leader in favor of putting an end to the anti-slave trade crusade, as it will inevitably send 10 to 20 millions sterling with the United States and Europe.

Provisions had been exchanged for three years' engagements and 4,000 Indian Sirs, for the protection of the young slaves.

The Government of Costa Rica and Nicaragua have called out their militia to repel the filibusters.

Commerce was generally unimportant.

From Washington.

Washington, June 15.—[Times' correspondence.] Gen. Cass has left for Detroit. Gen. Quitman of Mississippi, is also here. Gen. Shields is expected to-day. Gen. Lane is also here. Gen. Wilson, Minister to Siam, is here. Gen. Whitfield, Delegate from Minnesota, is here. Gen. Whitfield, Delegate from Minnesota, is here. Gen. Whitfield, Delegate from Minnesota, is here.

Winslow, member of the House from N. C. will probably be nominated as Minister to Spain.

Contrary to the advices sent from here to some of the press, the War Department has received no later dates from Utah than those of Gov. Cumming.

The views of some officers of the army, as expressed in some letters, are, that he went into Salt Lake City too hastily, that he has been deceived, and that the Mormons friendship is not to be relied on.

It will be recollected that the army was sent to Utah as a *posse comitatus*, subject to the order of Gov. C., and cannot move without direction. There are no new developments by the last arrivals. The army will move as recently directed, branching off at such immediate location as require protection.

Great Fire at Rock Island.

Rock Island, June 15.—A most disastrous fire broke out about two o'clock this morning, destroying the large brick block of stores on Washington street, between Illinois and Water. The building was occupied by John Spangler, vinegar and liquor store, loss $7,000; insured for $3,000. D. J. Lewis, ale and liquor store, loss $2,000; no insurance. The loss for the building is $15,000—insured for $6,000.

The clothing store of H. Zeis, corner of Washington and Illinois streets, was damaged $1,000, insured. The Mammoth House, adjoining on Illinois street, was also destroyed; loss 2,000—fully insured.

Fire and Loss of Life.

New York, June 15.—At a fire in Baxter street, early this morning, four persons were so badly burned that two are dead, and the others not expected to recover.

Special Notices.

CAUTION TO INVALIDS.—Drs. C. M. Fitch and J. W. Dyer, of Chicago, would call especial attention to a notice appearing in the Western papers from Dr. S. S. Fitch of New York, warning the public against the reckless practices of irresponsible empirics, and his proposed publication. In the Northern and Eastern papers it has been so advertised as to imply connection with the above firm in New York and Dr. Fitch and Dyer in Chicago, while in the same city such is not the case, Dr. S. S. Fitch of New York (not to be confounded with "Old Dr. Fitch"), formerly a week passes that Drs. Fitch and Dyer are not aware of, some person traveling in some portion of the West, hailing from Chicago, either claiming to be their partner or acting or assuming their agency, and thereby damaging their old-established reputation. Dr. Fitch is always at his office, 104 Monroe street, Chicago, on Tuesday, Wednesday, Thursday and Friday of each week, where all who desire it can consult him, either personally or by letter. Each communication should contain a three cent stamp to pay return postage. Address as above.
P. S.—A copy of the "Invalids Guide," which is thirty-two pages, and contains a treatise on all diseases, sent free to any one by mail, on receipt of price, $1.

REWARD OF INVENTORS.—CAUTION TO INVALIDS.—Dr. Tate of S. Fitch, Office 714 Broadway, New York, is known to the under [illegible] Diploma from the Medical College of [illegible] York, and has all family connections, conditions for practice with his name. He is never absent from New York, or has not been for many years. He has no other office than that mentioned above. He never travels for Physicians or Chemists, and has not had, [illegible] Beware of impostors using his name, or pretending to have now, or have had any professional connection with him! They are an imposition! Apply, personally or by letter, directly to him at his office, 714 Broadway, New York, where alone can be obtained the genuine and original remedy, and treatment combined successfully by him. Do not trust the patient preferred. His "Six Lectures" on the Causes and Curing the Method by which he has cured [illegible] patients, sent free by mail, on receipt of price, 25 cents.

Dr. Tate's new hundreds of remedies sold at [illegible] Drug Store, purporting to cure all diseases named, and advertised as the very best ever known, till we have not all faith in them—but there is one exception.
Formula of Dr. Sanford's Invigorator, which cause [illegible] unanimously set to a cure for Liver Complaints, and all [illegible] of many of our physicians in its favor, induced us to try it, and our conviction is certain that it is one of the greatest blessings ever given to dyspeptics, for it [illegible] a quantities we used the first bottle was taken, and now when we eat [illegible] without trouble, while before, nothing [illegible] digested and vomited, and we can have none [illegible] Now all we want to say to all our readers is, if [illegible] Invigorator Dyspepsia must [illegible] on, do not fail to try this, [illegible] advertisement in the week.
